STYLE OF PLAY & FORMER CLUBS

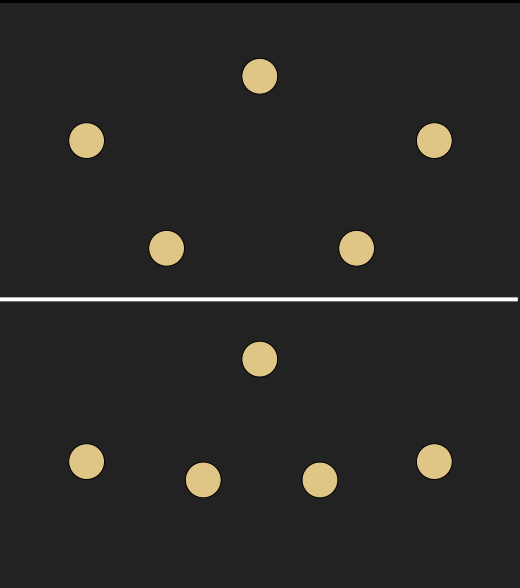

High pressure Offensively Confidence Transitions Joy

"I want my team to play with high, intensive and aggressive pressure. The goal is to win the ball on the opponents side so we then can create more suitable chances"

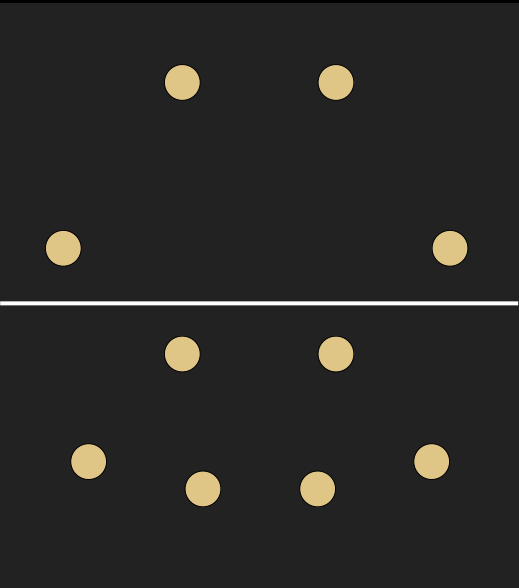

"If i can assign the players with a clear role and mission, then the players can use their strengths as often as possible. They will feel more confident and therefore develop to be better players - better players will enjoy the game more and most definitely give more back to the team on the pitch"
