## ABOUT ME

Throughout my career I have gained a lot of experience in clubs and federations, firstly in coaching staff and then taking on managerial positions. Whilst carrying out my job I have always continued to expanding my knowledge by attending training courses. I have always searched to integrate my background in technical coaching skills with managerial and business skills. I like working towards objectives, planning, carrying out and monitoring projects in line with the vision and mission of the club. My aim is to optimize the club's resources with the focus being on continuously adding value. My goal is to position myself on the market as a Manager who knows about football but at the same time knows how to run a company.
