

DIEGO BARTOLI

Football Coach

PROFILE

I have been playing the role of football manager for 20 years with passion, enthusiasm and desire to influence the growth and development of young players. I have had important experiences in professional football clubs such as AS Roma and UC Sampdoria thanks to which I decide to invest in the professional development of young coaches through the creation of a strong learning environment and a culture of training methodology. In the modern football I believe in the needs for the coaches and the staff to work on players individual needs to improve their game's understanding and decision making. Improve the player within the team. Each player one pathway.
