*"I am currently working as supply chain planner at Essity, in the logistic Hub of Barcelona. Regarding the academic background I have completed a master's degree in general management at the UPF-BSM and a master's degree in engineering management at Federico II University. I am an enterprising and determined person who likes to work in a team. I constantly strive to exude positive energy and have a strong knack for problem-solving. I face every challenge with determination, passion, and curiosity."*

## EDUCATION

- **Master of Science in "General Management"** 09/2023 – 09/2024

## WORK EXPERIENCES

### - Supply Chain Planner

10/2024 – PRESENT

Essity | Barcelona

- Responsible for production planning in the UK, Austria, and Italy plants, coordinating import/export flows with France, Germany, the Netherlands, and Spain.
- Define and optimize the production plan based on demand planning data, finished goods data, and stock level analysis in warehouses.
- Develop short, medium, and long-term production strategies and plans, ensuring the balance between demand and production capacity.
- Advanced use of SAP (A16, A26, Production Planning Table, Detailed Scheduling Board, Resource View) for production planning and monitoring.
- Monitor stock levels, analyse performance, and collaborate with production plants to optimize capacity, enhance efficiency, and minimize out-of-stock risks.
- Collaborate with procurement, logistics, and demand planning teams to align production plans with supply flows and business needs.

### - Project Management Analyst

01/2023 – 09/2023

Accenture | Milan

- Analyst in the PMO of the Strategy & Consulting department, focusing on Transformation Excellence projects in the Products industries (luxury, retail, automotive, consumer goods).
- Analysis and improvement proposals for Business Process Reengineering (BPR)
  - Planning and monitoring scheduled activities using Gantt charts to optimize workflow and ensure on-time delivery.
  - Tracking and evaluating critical activities using risk management methodologies to ensure project success.

### - Mathematical Analysis Tutor

09/2021 – 09/2022

University Federico II | Naples

- Didactic-integrative activities of tutoring for students of the Department of Industrial Engineering (Management, Chemical, Electrical, Naval, Aerospace). (Activity reserved for deserving students selected by ranking).

### - Technical Project coordinator

02/2021 – 12/2022

UniNa Corse – University Federico II | Naples

- Supported the planning, coordination, and monitoring of project activities for the design and development of the Formula SAE Italy competition vehicle (2021;2022).
- Collaborated with cross-functional technical teams, managing communication, documentation, and project timelines to ensure smooth workflow.
- Prepared technical reports and presentations for static events and provided organizational and operational support during the competitions.

### - Student Internship - Engineering department

09/2019 – 03/2020

University of Naples Federico II | Naples

- Organization and problem solving of the Industrial Engineering department
- Creation of the timetable / location calendar of bachelor and master's courses of the Industrial Engineering department, using the Office package and software owned by the university. (Activity reserved for deserving students selected by ranking).

### - FIGC federal referee

05/2015 – 06/2020

FIGC (Italian Football Federation) | Naples

- Football federal referee for the FIGC, associated with the Italian association of referees (AIA) at Naples section.

### - Security steward

09/2017 – 06/2021

MFC | Naples

- Security management activities for national events in Naples, Rome, Milan.
