■ Obiettivo

Be an important added value for my club. Bring resources to my club that can generate assets and important improvements to the team.

■ Studi e Formazione

High School Diploma "Accounting Analyst"

■ Esperienze professionali

Set 2014 - Nov 2020 scout - BOLOGNA FC 1909

- I carried out the activity of observer in the scout group of the "competitive" youth sector, that is, I followed the teams participating in the national championships.
- U 15,16,17,18 and Spring.
- I was regularly hired with a part-time contract plus "footer" reimbursements.
- The task was carried out in regular discussions with the manager.
- The weekly activity was managed either by me, therefore, suitable for following profiles decided by me or it was the club that entrusted me with "target players" identified by them. At the end of each activity, a report was drawn up with an analytical sheet using software provided by the club.
- During my "career" I "scouted" for the club:
 - - Victor Osimhen card made in October '15 after seeing him at the U 17 World Cup in Chile.
 - - Sekou Koita currently at Red Bull Salzburg. Seen in the same competition.
 - - Cristian Volpato personally taken to Italy from F.C Sidney. He trained for a week with the U 16.
 - - Federico Brancolini now in Lecce, I noticed him in a Vignola
 - - Daniel Ferrante '05 captain of the BFC champion of Italy U 17 '22. Taken from Modena.
 - - Gianluca Gattor 06 BFC U 17. 15 appearances 7 goals 4 assists.
 - - Victory Beniangba '01 last summer as an "autonomous", seen in Egyptian Serie A. Proposed in Italy, to no avail, he went on trial to Genk who registered him for the U 23 team.
 - - Nestor Irankunda '06 identified a year and a half ago. I have already entered into conversations with Serie A clubs and abroad.
 - - Gioele Zacchi goalkeeper Sassuolo and U 20 national team

■ Lingue straniere

English A2

■ Punti di forza

- Thirty years of experience on the playing fields practiced as an amateur
- Excellent relational skills and to create "reports", empathy
- International network of signalers
- Thanks to my expertise, I am able to ANTICIPATE the market, thus
- Use of exclusive algorithms
- personal database with names of players of important prospects
