

FABRIZIO SANSOLDO

PROFESSIONAL OVERVIEW

After graduation at Bocconi University of Milan (Italy), I started my professional career dealing as auditor and then within Finance Departments of different multinational groups.

Consolidated knowledges related to Accounting and Reporting and Controlling, together with a strong resistance to work under pressure, achieving results in the respect of due dates defined.

Great ability to operate in multicultural environments, obtained through job activities abroad, along with consolidated skills about teamworking and management of resources.

I am always looking for new professional challenges on a national and international scale which could lead me to the opportunity of working as Chief Financial Officer or Finance Manager.

PROFESSIONAL EXPERIENCES

Financial Controller, 01/2019 to Now

V2 Group - Racconigi (CN), Italy
