

Ithiel Piñero Darias

Data Scientist

Summary

Forward-thinking data scientist skilled in optimizing data management processes, specializing in Machine Learning and Artificial Intelligence projects. I value collaborative, interdisciplinary efforts to enhance solutions. My passion is leveraging data in sports for a competitive edge that truly stands out

Skills

- Spanish
- English
- MySQL
- Python
- R
- Machine Learning
- Deep Learning
- Computer Vision
- NLP
- Tableau
- Photopea
- Microsoft Office
- Canvas
- Git
- BeSoccerPro
- Catapult
- Mediacoach
- Wyscout
- SkillCorner
- BePro
- Metrica Sports

Work Experience

Data Scientist/Scout (Internship)

CD Tenerife (Spanish 2° Division)

Apr 2024- current

- Automation of information extraction and cleaning processes aimed at generating player evaluation metrics.
- Preparation of reports on potential recruits for the academy.
- Generation of both sports and business visualizations in PowerBI and Tableau.

Data Scientist (Internship)

Asociación Nacional de Fútbol Profesional (ANFP)

Apr 2024 - current

- Extraction of physical information from SkillCorner for players of interest for the Chilean National Men's Team.
- Generation of ad-hoc visualizations using PowerBI for the national Physical Trainers team.

Data Scientist IA|ML

Grupo EVM S.A.

Nov. 2022 - Mar. 2024

Keywords: NLP, TAMIZ, Recommendation Systems, Clustering, Machine Learning, Artificial Intelligence, European Projects, Anomaly Detection, Data Audit, Jira, DBeaver, Git, Python.

Data Scientist in Financial Services

KPMG S.A.

Sept. 2021 - Jun. 2022

Keywords: Debt Recovery Models, Valuation Models, Data Quality Analysis, Python, SAS, SQL, Teradata, Git, Machine Learning.

Data Analyst & BI Intern

SATOCAN S.A.

Sept. 2019 - Febr. 2020

Keywords: Data Visualization, QlikView, Regression Models, Classification Models, SQL, NoSQL, R, Python.

- **Performance Report: Rafa Mújica.**
- **Performance Report: Pau Cubarsí.**
- **Video analysis of Athletic Club in the Offensive Phase**
- **Midfielders Report in the Spanish Second League.**
- **Search for under-23 attackers in second divisions.**
- **Optimisation system in destinations for loans.**

Educational Background

Master's in Applied Big Data for Football Scouting.

Sport Data Campus & Sevilla FC Innovation Center.

Oct. 2023 - Jul 2024

Final project: Optimisation system in destinations for loans. Grade: 10/10.

Master's in Data Science and Computer Engineering.

University of Granada

Oct. 2020 - Jul. 2023

Specialization in Data Science and Intelligent Technologies.

Final project: Application of Data Science in biomedicine and bioinformatics problems: a case study on image-based diagnosis of skin diseases using Explainable Artificial Intelligence centered on human.

Grade: 9.4/10.

Bachelor's Degree in Business Administration and Management.

University of Las Palmas de Gran Canaria

Sept. 2015 - Jul. 2020

Bachelor's Degree in Computer Engineering

University of Las Palmas de Gran Canaria

Sept. 2015 - Jul. 2020

Specialization in Information Technologies.

Final project: Analysis of localization and intellectual capital on entrepreneurship in Spain using Machine Learning techniques.

Grade: 9.9/10.
