DESCRIPTION

My favorite game system is 1-4-3-3, but I have used many systems from 1-4-3-2-1 to 1-3-5-2 and others depending on my needs and the players I had available. I love offensive football, I study coaches a lot like Guradiola, Tukel, De Zerbi, Gasperini. I believe that to win you have to force the opponent not to play and to make mistakes immediately, winning the ball quickly and restarting quickly, with high pressing up to the opponent's area. Among my winning principles are man marking in midfield with line breaking, and high defense with one man attacking and the other breaking away to form a defensive diamond. Everything, however, depends on the players available, the matches and the opponents. The key word is therefore flexibility. But my teams must have a lot of breath and running, this is the first fundamental rule. In the meantime, waiting for your comments
