## PROFILE

My work as a Scout has been mainly throughout the territory of Portugal, going from grassroots football to the First Division of Portugal. The fact that I am fluent in several languages it has been important for me to connect with foreign clubs and players. In Portugal I am aware of the many players in the young leagues (u-12 to u-19).

I am very keen on details that may have missed to other scouts, I study the player past and social life before going to watch a game so I can make a profile of the player and see if it will fit in the club or his behaviour in the game.

I could easily scout for you in Portugal, as I have a vast knowledge of our leagues.
