- Student/athlete.
- Formal offer of a scholarship to study and play football at the American university Missouri Valley College.
- Prize - "Desafio Notas - 1st Period" - Best Student

THE FUTURE

I have the ambition to apply the knowledge and experiences acquired over the last few years, in order to contribute to the development of society and, simultaneously, evolve as a person and professional. In a global context, where the areas of Bioengineering and Biomedical Engineering are increasingly relevant, I believe that I can add value through the knowledge acquired throughout my academic career, applying a rigorous, methodical, creative and multidisciplinary approach.
