### Leadership - Team working *Building*

My best qualities within a team are: empathy and the ability to recognize/appreciate diversity in a team.

I often have to manage situation and people. I am the mentor of younger employees and now I am responsible for a medium-large team.

### Work Hard *Smart*

My ability to focus on results and to work under pressure allowed me to graduate on time with an excellent grade point average.

My organized and structured approach to work allow me to respect time delivery, often applying agile methodologies.
