

To whom it may concern,

I am writing this recommendation letter at the request of Alejandro Dorado from my position as RC Celta de Vigo head coach.

I have known Alejandro since 2009, when a young coach came to Liverpool to learn about my training methodology. He was an enthusiastic coach who wanted to know the way our staff worked. During the following years, he grew as a coach until he became part of an important club like Real Madrid CF, which we came across in 2015. In 2019, he was part of my staff at Dalian Pro. He was an assistant coach helping me in the field with the training sessions, helping Antonio Gomez in the video analysis department, and Darko Matic in the scout department.

I consider Alejandro a professional at any field where dedication, hard work, intelligence and good temperate are requirements. His responsiveness and positive attitude in critical moments are his strengths.

I know that Alejandro has the capacity, experience, and knowledge to successfully manage any project, and in my opinion, he can help projects grow.

For all these reasons I would like to recommend Alejandro for the job in question as I do not have any doubt his performance will be excellent. If you have any further questions with regard to Alejandro please do not hesitate to contact me.

Yours sincerely,

  

Rafael Benitez Maudes
