WORK EXPERIENCE

Tactical and Data Analysis Trainee

November 2023 - Currently
Club Santos - Liga MX

- Carrying out individual pre-match analysis of rivals, using data analysis to generate graphs of player metrics according to their position, in order to identify playing styles, as well as strengths and weaknesses. Subsequently, video analysis is carried out to extract clips of plays that demonstrate the concepts in the graphs and videos are produced that are sent to the players so that they can get to know their opponents.
- Generating databases of the club's players to obtain insights using tools such as Python.
- Women's U19 video analyst and support in real-time analysis and monitoring of youth matches (U14, U18, U19 Women's and Women's First Division) to send snippets of plays to the coaching staff.

IDIOMAS

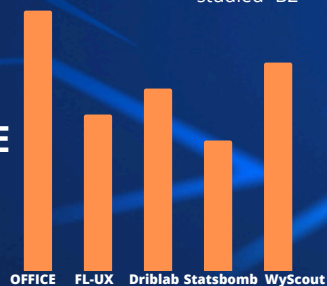

Talent Identification and Analysis Specialist

PFC Agency November 2023 - January 2024 (Freelancer)

- Development of scouting activities aimed at identifying and analyzing soccer players under different social and qualitative conditions, using Mexico (Liga MX, Liga de Expansión, Liga MX U23 - U15) and the United States (MLS, MLS Next Pro, MLS Next) as our main markets.
- Tactical analysis of different teams from various international leagues to identify market opportunities that could suit our players' technical and tactical profiles.
- Use of various tools to facilitate and complement analysis and scouting activities, such as Wyscout, as well as data management tools such as Excel, Python and Power BI.
- Weekly monitoring and analysis of our players' performances.
