INFORMATION

Date of Birth: 06/06/1999

Place of Birth: Venaria Reale (TO)

Driver's License: B

EXPERIENCE

U13-U14 Regional Scout

⌚ 09/2025 - Present ⓐ Piedmont, Italy

- Currently collaborating with the head of grassroots activities at Bologna FC (on a voluntary basis) for scouting players in the under 13 and 14 categories across Piedmont. I manage the leagues to follow independently, including National teams, Regional Championships, and Esordienti INV, subsequently sending reports on identified talents while maintaining an updated portfolio of observed players, enriching my experience and knowledge of youth football in the Piedmont region.
- This experience allows me to develop a more effective and precise scouting method and program step by step.

Scouting Consultancy Agency

⌚ Turin, Italy - Remote

- Worked for a scouting consultancy agency using a Hudl Wyscout account, where I created a template featuring the best players by position (at least 3 for inclusion) from the entire Swedish Allsvenskan 2025 season, analyzing full match videos and generating reports focused on specific players.
- This allowed me to deepen my use of one of the most utilized platforms by football clubs, practicing video scouting skills and utilizing data and statistics to enhance research and reporting.

EDUCATION

Technical Tourism Institute

IIS "Paolo Boselli"

⌚ 09/2013 - 06/2017 ⓐ Turin, Italy

CERTIFICATIONS

FIGC Football Scout Course

Completed a scouting observer course at the Federazione Italiana Gioco Calcio (FIGC) Technical Center in Coverciano. This course encompassed lessons on organization and creation of a scouting structure within a club, insights into the observer's role, how to set up and generate reports, study of data in modern scouting, and collaborative group work culminating in individual presentations on creating a scouting department within a professional club.

SICS Match Analyst - Tactical Video Analyst

Utilized and learned software such as VideoMatch, VMPresenter, and SICS DataAnalytics during the course. Studied football tactics, recognized game situations, and prepared analyses of opposing teams for both defensive and offensive phases of play. Developed exercises on curating clips for a playlist, incorporating annotations such as light cones, lines, arrows, etc., and creating a thesis alongside the video, focusing on tactical elements and highlighting various tactical variants, statistical data, etc.

Universidad Europea Real Madrid - Certificate in Game Models in Football

Analyzed and studied game models and tactical situations that characterize football. Organized training plans and managed training weeks, including examples of individual and collective workouts. Understood what a game model is and how it can influence the collective and the individual, fostering on-field interactions.

Google Data Analytics Professional Certificate (Coursera)

Basic proficiency in Tableau, SQL, and R. Participated in practical exercises paired with theoretical study. Successfully passed assessments of each chapter of the course to evaluate acquired competencies.
