2022 – 2023 2nd place Under 19 Regional Gir.F.

Note:

In the 2019-2020 season for work reasons I had to pause my coaching activity, instead continuing to play in the first category, and in the following season (2020-2021) after the suspension of the amateur championships a few days before the start, I had the opportunity to return to coaching by receiving the call from the Nola national junior team, but unfortunately after five months of training only the championship was definitively suspended in March 2020.

In the 2021-2022 season, at the end of the first round with my regional U19 we were undefeated and first in the standings, with also the best attack. Unfortunately due to some important transfers in January and some long disqualifications following an unpleasant episode which saw us victims in a victorious away match, the team suffered a decline and ended up in third place. Tactically, in my experiences as a coach I can say that I have developed a certain predisposition for organizing high and targeted pressing, maintaining a short and compact team, rotating the half-wingers with the wingers, and developing the game constantly with the ball Earth. Furthermore, as already mentioned, I think I have a strong predisposition for managing the group and the human "resource" itself, having also collaborated in the past with courses and training institutions.

In the 2022-2023 season, after breaking up with Sant'Anastasia during the pre-season phase, among the various opportunities that presented themselves to me, I chose the Sporting Club Ercolanese, an ambitious club of Campania Excellence, which entrusted me a few days before the start of the championship the Regional Junior U19, made up of a squad almost entirely two years under the age of sixteen boys born in 2006. The season ended with an excellent second place, two points behind first, with which we also collected four points between each leg and return. Best attack and best defense, as well as having had the great satisfaction of seeing four boys make their debut in the first team. For two championship matches (due to disqualification of the then second team) I was paired with the coach of the first team (Luigi Squillante), the latter challenged for promotion to Serie D by losing the national semi-final. In the 2022-2023 season I chose to give continuity to my work by remaining in the same company, which in the meantime changed its name to SS Ercolanese 1924. I started by always coaching the Under 19 Regional team, but in November I was definitively promoted to the first team as assistant coach alongside coach Luigi Squillante.

For the future I would like to test myself in a National Under 19 championship (but also U15-16-17). I believe I have the right motivation and open-mindedness to face more competitive situations. The best would be to collaborate with a professional club or in any case one that focuses more on the development of young people.

Other interests:

In 2018 I published a novel and a collection of poems, with moderate success around Italy.
