Professional Profile

AIAPC-certified Match Analyst with experience in high-level amateur clubs such as Piacenza Calcio and elite youth sectors including Savio Calcio and Vis Aurelia (Empoli Academy). I combine technical-tactical analysis, video report production, and data interpretation with a solid understanding of the internal dynamics of football clubs, supporting staff and players in improving both individual and collective performance. I hold a degree in Sport and Exercise Science from Manchester Metropolitan University and a postgraduate specialisation in Data Analytics in Sport from Sport Data Campus and UCAM University.

Core Skills

- Advanced tactical analysis and opponent scouting
- Video analysis, tagging, and production of technical-tactical reports
- Data interpretation and integration with visual analysis
- Individual, and team performance analysis
- Proficient use of professional platforms (Veo, LongoMatch, NacSport, Wyscout, and Hudl)
- Effective technical communication with coaching staff and players

Education

MSc Sport Data Campus – UCAM, Master's Degree in Data Analytics in Sport (2024–2025)

Focus: Statistical modelling, Machine Learning, programming in R and Python, Big Data, Match Analysis, and Performance Analysis.

Manchester Metropolitan University – BSc Sport and Exercise Science (2021–2024)

Focus: Performance Analysis, Physiology, Biomechanics, and Applied Sport Sciences.

Elite Football Centre – Post-Graduation Course in Match Analysis (2024)

Focus: Video analysis, tactical evolution, and performance mentoring.

Experience

Match and Data Analyst, Savio Calcio – Rome — 07/2025 – Present

- Responsible for opposition analysis and performance reporting for all youth categories (U14–U19). Direct collaboration with coaches, the sporting director, and the scouting department, delivering tactical insights and detailed video reports to support staff decision-making and enhance collective team performance.

Account Manager Intern, Iterpro – Rome / Remote — 04/2025 – 11/2025

- Supported client relationship management and coordinated communication between scouting, performance, medical, and administrative departments. Assisted in customising the software platform according to the specific needs of football clubs, contributing to the implementation of integrated data-management solutions to improve efficiency and internal collaboration.

Strength & Conditioning Coach and Match Analyst, Vis Aurelia – Empoli Academy – Rome — 08/2024 – 07/2025

- Designed personalised training programmes to improve strength, endurance, and sport-specific abilities. Collaborated with the coaching staff to integrate physical preparation with tactical objectives, also providing match analysis support for player development.

Match Analyst Intern, Piacenza Calcio (Serie D) – Rome / Remote — 01/2025 – 06/2025

- Conducted team and individual performance analysis using video and data, identifying tactical patterns, strengths, and areas for improvement. Delivered actionable insights to assist the coaching staff in match preparation and strategic decision-making.

Executive Staff Member, Maccabi GB – London, UK — 07/2024 – 08/2024

San Carlo Cicchetti, Bartender, Manchester UK (02/22 – 05/24)

Technologies: R, Python, Wyscout, NacSport, LongoMatch, Veo Camera, Power BI and Tableau
