FURTHER INFORMATION

Sports - I have been playing football at an amateur level since 2006 and then quit in 2018 as I enrolled at university. Furthermore, from 10 to 14 years old, I practiced swimming, therefore I got some personal prizes in provincial competitions, and volleyball with the school team with which we participated in the regional ones. To date I train in the gym regularly and, when I can, I practice in an amateur way: soccer, padel and running.

Hobbies - In my spare time, as soon as I find two or more free days in a row, I always look for a way to travel: in fact I have visited almost all the European capitals even more than once, as well as having visited parts of Asia, particularly China. Through "Training Trip", in addition to the Erasmus + project with the university, I participated in 2017 in an international Italy-Holland exchange and in September 2022 in the "Youngpreneurship Youth Exchange", a project located in Tunisia and sponsored by UNESCO aimed at developing and improving business skills with artistic tools. Moreover, with immense pride, I feel like notifying my presence at the Soccer Football Summit held in Rome at the Stadio Olimpico on November 22 and 23, 2023: in fact, as a student of Sole24Ore Business School, I had the opportunity to closely follow the leading figures of the football industry, including corporate CEO Alessandro Antonello in an interesting speech on the financial growth of the Inter company in recent years.
