Match Analysis

**PROFESSIONAL PROFILE**

A football coach with extensive experience in both youth and international senior teams. Specializing in technical and tactical player development, team management, and match analysis. Passionate about football, he takes a methodical and modern approach to training and preparation. He uses various playing systems flexibly, depending on the squad and opponents: 1-4-3-3; 1-4-2-3-1; 1-4-3-1-2. His philosophy is based on high pressing, build-up play from the back, and intense duels and possession.

If the squad doesn't allow it, I adapt to the characteristics of the players available, creating a playing model suited to their characteristics. I create a harmonious environment that fosters player growth. I promote and develop young players who are permanently integrated into the first team.
