## Experience Working With

Wyscout, Spiideo, Sportscode, Longomatch, Polar Team Pro, Catapult, Playmaker AI, SciSports

# Quality is Prioritized

In the Allsvenskan 2017, a starting eleven that in modern times is one of the youngest starting elevens in Sweden's top league played for 3 matches, with the result being two wins and one draw. And myself coaching as the youngest coach in Swedish Top league. A points distribution during the fall of 2017 was achieved which, for a full season, would have been enough for an Allsvenskan contract and a more challenging with a young starting eleven..

My starting point is to always judge the players based on their qualities and strengths on the field, which has meant that I am not afraid of playing young players in a challenging environment, as long as the skills are there. Quality and workmanship are always prioritized first.

Outstanding young players who have been coached or mentored by me as an active leader; (\*became a national team player)  
Varberg's BoIS - \*Modou Barrow, \*Hosam Aiesh

Halmstads BK - \*Sead Haksabanovic, \*Aboubakar Keita, Isak Pettersson, Kosuke Kinoshita, \*Gabriel Gudmundsson, Simon Andersson, \*Edvin Kurtulus.

Örgryte IS - Herman Sjögrell, Kevin Ackermann, Ajdin Zeljkovic

\*For a team to be successful, the goal must be clear, both individually and as a team.

The mainstay of the teambuilding;

- Acceptance of the team's guidelines.
- Sacrifice for the team's path to success.
- The individual strengthens the team.

-The person behind the player determines the individual development.

# Playing Career
