

Vlad-Cristian Oprescu

Football Analyst/Scout

Summary

Hello, my name is Oprescu Vlad-Cristian, i'm 23 years old and i'm from Romania. I consider myself a creative, hard-working and open-minded person who has an obsession for football, trying to get in this world where i've always wanted to be. Until last year i was a Sports/Football Analyst in Romania, where my job was to analyze different games for different clients serving for different reasons, as you would see in my CV i have watched/analyzed over 500 games from different competitions, leagues, age groups etc, so i've developed a very analytical thinking. In my time working there i've gathered experience using Hudl/Wyscout and a little bit of SportsCode, also recently i've been able to learn more about coding especially in football using the Python course from Udemy, so my ability of using video editing software is pretty good. Also, as you would've seen in my CV i have some certifications from IPSO and PFSA, alongside some player reports that i've done in the past (whom i can send if asked to) hoping to get many more in the near future in order to gain as much informations and knowledge as possible. I am also looking forward working abroad having no problem doing so, because i love travelling, i have a very good understanding and speaking of English which helps me interact and discover new people and cultures. Any other questions about me or my past work you will find in my CV or i will gladly respond to them on Whatsapp or email.
