PROFILE

I've always been passionate about football and since was a kid it was clear I wanted to work in football area. In 2016 I decided to spend a year abroad to learn English as my target always was to work in a Premier League club.
I grew up watching LaLiga and Premier League but thanks of my period in Leganes I have good knowledge about other leagues too.
I'm open to move to other cities / countries if neccessary.
