PROFILE

Data Scientist, 26 years old, with a Master's degree in Computer Science and initial experience in data science at CMA-CGM, in an international context. I also work with professional football players to improve their performance using video and statistical analysis. I'm ready to travel.

WORK EXPERIENCE

DATA SCIENTIST
CMA-CGM | September 2022 - Now

- Optimisation of a forecast model
- Development of a Python API for a Network Optimisation Algorithm application linked to a Cplex solver, with a batch of data feeding a redis cache for the API
- Operational research into road transport planning issues
- Continuous Integration and Continuous Deployment (CICD) of the python API and batch data management

PERFORMANCE ANALYST
IFP (Independent) | January 2023 - Now

- Development of apps to analyze games and players performances:
  - game-analyzer.streamlit.app
  - playeranalyzer.streamlit.app
- Support for professional players at FC Nantes, Montpellier HSC, FC Annecy and VAFC.
- Tactical and technical analysis of strengths and areas for improvement
- Video reports and data visualisations after each game

FOOTBALLER (ASPIRING PRO CONTRACT)
Nimes Olympique | 2013 - 2016

After trials at Chievo Verone and Fulham, I signed for the Nimes Olympique training centre, where I spent 3 years, up to the reserve team. Then, I played in the French 4th division for 4 years.
